We Truly Wish To Have Long Term Relation With Customer's Who Receiving Quality Believes Products.

We Are Increasingly Aware Of How The Foods We Eat: Impact On Our Health That's Why We Try To Give Highly Pure Hygienic & Nutritious Products To Our Consumer. This Has Become Possible Because Of Collective Work Done By Profarma Global Consultancy. **Latter Was Established In Year 2021.**

Vision

Profarma have one vision that is to be on the top in terms of providing the healthy, hygienic, quality food product. We also works for enlighten the future of farmer by converting the underutilized commodity into healthy and tasty products. We continuously engaged in R and D on agricultural commodity and preparation of new food products. Our activity definitely helps to farmer by giving better returns to their raw material. Our aim is to prepare natural food products from different kind of fruits and vegetables, which help to reduces various kind of diseases and provide all nutrients to body for growth and developments. We are on the way to utilize the entire agricultural commodity by converting them into processing products and try to avoid the post harvest losses. We want to establish good product range in the market which will most like and purchase by consumers.

Values

Profarma produces pulps from Good Quality, Firm, Mature and fresh fruits. We procure the required fruits and vegetables directly from farmers. We convert agriculture raw material into finished edible food products by using different kind of technology like Blast Freezing, Canning etc. We pack products into customized packaging like Retail Packs as well as bulk packs as per customer requirement. Customer service and satisfaction is the prime aim of our firm. We use technological advancement, good kind of supportive team in production system. We are mostly deals into natural products which is free from any kind of preservatives, artificial colours and flavours.

About Us

At Profarma Foods Pvt. Ltd., we are dedicated to bridging the gap between farmers and consumers by creating high-quality, healthy, and hygienic food products. Established with a vision to empower farmers and minimize agricultural waste, we specialize in sourcing fresh produce directly from farmers and transforming it into premium processed food products.

With over 5 years of experience in the food manufacturing industry, our company stands out for its commitment to sustainability and innovation. Our direct association with farmers, facilitated by our sister company Profarma Farmer's Producer Company Ltd., ensures a seamless supply chain that benefits both farmers and consumers.

We also take pride in our efforts to reduce agricultural waste by utilizing surplus fruits and vegetables and converting any residual waste into organic vermicompost. This holistic approach reflects our dedication to sustainability and environmental stewardship.

Additionally, our consultancy arm provides end-to-end solutions for food industry development, offering expertise in concept design, documentation, and product marketing to help entrepreneurs succeed in the food processing sector.

At Profarma Foods Pvt. Ltd., we believe in nourishing people, supporting farmers, and safeguarding the planet.
